

What should I already know?

- How to interpret and present data using bar charts, pictograms and tables.
- Solve questions using information presented in bar charts, pictograms and tables.

Key Knowledge

Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.

Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.

Class 10's Favourite Colours

○ = 2 Children

How many more children preferred to blue?

$$8 - 7 = 1$$

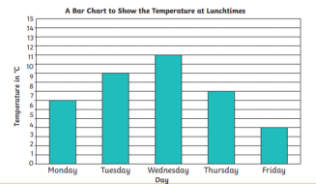

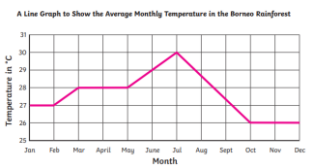

How many children chose red, green and yellow altogether?
